

23rd March 2026

An Egg-citing opportunity

Dear Parents/Carers,

Next term, the children are going to be learning about Growing. We are going to be looking at how plants and animals grow and we love to provide the children with engaging and hands on experiences to bring learning to life.

Alongside planting sunflowers and runner beans, we are delighted to have arranged for the children in Pre-School and Reception to be involved in a 2-week egg hatching programme in their classrooms. We will have a delivery of eggs in an incubator on the week beginning 20th April and we will be provided with everything we need to look after our eggs when they hatch.

We are certain the children will be amazed and curious by their new little classroom friends and they will learn so much about how to care for living things and watch them grow, hatch and change.

To make this opportunity possible, we are asking for a contribution of **£4.50** per child.

Please give permission for your child and pay on MCAS by **Wednesday 1st April 2026**.

If you have any questions, please speak to a member of the EYFS team.

Yours faithfully,

EYFS Team
