

22nd April 2026

Dear Parent(s)/Carer(s),

We are pleased to let you know that Year 5 will be taking part in a science project called “The Problem with Plastics”, run by Science Creates in Bristol.

The project will start in school, where science experts will visit the class to introduce the topic and help children think about plastics and how they affect the world around us. Pupils will take part in practical activities and discussions, learning how science can help solve real problems.

The project will end with a visit to the Science Creates Labs in St Philip’s, Bristol. On this visit, children will see real scientists at work and learn how ideas from the classroom are used in real life. Pupils will also have the chance to share their own ideas and learning.

Important Information

Pupils must wear full school uniform.

Pupils will eat lunch at 11:45 at school before leaving at 12:20.

They may still order a school lunch or bring a packed lunch as normal.

Pupils will travel by coach to and from Science Creates.

We expect to return to school at around 3:30pm.

If you are able to help supervise the children on the trip, please let the school office know as soon as possible.

Thank you for your continued support.

Kind regards,
Ben Worsop
